

Cornmarket is proud to partner with the INTO and Breast Cancer Ireland on the Breast Health Awareness & Education Programme, which is available to all INTO members, teachers and support staff. The team at Breast Cancer Ireland are providing presentations to schools about the importance of breast health education.

About the Programme

This programme aims to educate teachers and support staff about breast cancer and the importance of self-checking. Learn how to perform a self-breast examination and understand the 8 signs and symptoms to look out for. This programme has the potential to really make a difference to the lives of INTO members and your colleagues. Awareness saves lives.

Get involved

The presentation is free of charge and available to primary schools nationwide. Presentations take approximately 30 minutes and can be arranged during lunch time or after school (Croke Park hours). Presentations can take place online or in-person, depending on your preference. We are encouraging all teachers (both male and female), as well as support staff working at schools to join the presentation once your school is booked in.
