This is the third and final webinar in a three-part series exploring Global Citizenship Education opportunities for primary schools.

Global Citizenship Education is an active and creative educational process to increase awareness and understanding of the world in which we live. Learners are supported, in age-appropriate ways, to make connections between their own lives and international social justice issues, to collaborate, cooperate and be empowered to make a positive difference in the world.

This webinar will provide:

- **An introduction to the Sustainable Development Goals (SDGs) – the international commitment to tackle huge global challenges including poverty, inequality, climate change.**
- **Cross-curricular and subject-specific approaches to the SDGs.**
- **Resources and child-appropriate actions for exploring and responding to the SDGs.**

Facilitated by **Global Village**

**Global Village** is the new strategic partnership for Global Citizenship Education in Primary Schools, between Irish Aid at the Department of Foreign Affairs, and a consortium of Trócaire, Dublin City University (DCU), the Irish National Teachers' Organisation (INTO) and the Irish Primary Principals' Network (IPPN).
